An Enterprise
Activity Pack

Teacher's notes

Any age group could use this activity and benefit from it in developing and enriching their Enterprise Capabilities, Financial Literacy and Economic and Business Understandings. However, it is particularly designed to be 'user friendly' for younger secondary age students from Year 7 upwards.

GROUPING

Students should group themselves or be grouped according to the best mechanism for the group as determined by staff with overall responsibility. It is recommended that group sizes should not exceed 4 for optimum operation. It is desirable that grouping is planned ahead of time. Friendship groups are usually the most successful unless the school has a particular aim in mind. Document packs containing all paperwork that students will need for this day's activity could be assembled in advance. This enables smooth and easy distribution of all the documentation that the group will need.

RESOURCES ORGANISATION

Documentation

All resource sheets mentioned in the Activity Sheets in the Teacher's Notes Section are to be found as photocopyable sheets included in the resource section, p. 15-40. For ease of distribution, it is advised that these could be photocopied onto different coloured paper according to their type and function and then distributed to groups in a re-sealable pack, such as Primary School 'zipper' book bags. It is simpler for the facilitator of the activity to ask them to "Take out the pink sheet" (or whichever colour) so that students are not wasting time on searching nor are staff trying to hand out sheets in a hurry. It also a tidy space to put paper when it is not needed for easy recovery when next required.
